

Oman Antimony Roaster Project Engineering & Construction Update

PRESS RELEASE: 7th December 2015, Muscat, Sultanate of Oman

Appointment of Project Metallurgist

I am pleased to announce the appointment of Mr. Paul Miller as Project Metallurgist for the Oman Antimony Roaster in the Sohar Freezone. Paul brings over 30 years of resource industry experience, with particular emphasis on process metallurgy and refractory gold treatment. He holds a PhD in Chemistry and has a number of patents. Paul has previously worked with Mintek in South Africa, Kvaerner Davey in the UK and has been responsible for the design, build and operation of a successful sulphide & precious metal processing plant.

Paul will be spearheading the metallurgical work program for the antimony roaster and also bringing his skills in gold processing. He will be joining the technical team at the now operational Project Support Office for SPMP located in Sohar.

We welcome Paul to the SPMP team and look forward to his valuable contributions to the successful delivery of this and future projects.

Emin Eyi
Chief Executive Officer
